

A Journal of the Gesellschaft Deutscher Chemiker

Angewandte Chemie

International Edition

Dear Professor Koike,

In 2021,

You were among the top 1% of reviewers for *Angewandte Chemie* in terms of number of reports completed. We thank you for your insightful comments and thorough evaluations, also on behalf of those authors who benefited from your advice.

The over 18,000 referee reports that we received from nearly 7000 different referees have been instrumental in ensuring that the papers published in *Angewandte Chemie* are of the highest scientific quality. In 2021, *Angewandte Chemie* published 3278 original research papers, in addition to reshaping the role of the International Advisory Board and establishing a Scientific Advisory Committee, shortening publication times by more than two weeks, and launching *Introducing...* Profiles, Viewpoint Articles, and Scientific Perspectives.

Listening to and learning from our community is key as the journal continues to evolve in 2022. We would be glad to hear any thoughts that you would like to share with us by reply to this e-mail.

With kind regards,

Dr. Frank Maaß

Dr. Nathalie Weickgenannt

Dr. Neville Compton

Dr. Theresa Kueckmann

Dr. Xin Su

Dr. Suzanne Tobey
